

# GREAT NEWS! WE'VE UPGRADED OUR CYCLE2WORK OFFERINGS

Here at Cycle2Work we have been working hard behind the scenes collecting feedback from businesses just like you! We have been using this feedback over the last few months to help mould some exciting developments to our proposition. .

One key area came top of the list for the companies we work with: cycling safety! It's clear that organisations are putting more emphasis than ever before on the health and safety of their employees – especially when travelling to, from and around work.

Following on from the updated guidance last year, we saw this as the perfect opportunity to work on our offering as a whole and ensure we are providing employers and employees everything that they need for a safe commute.

Please see below the new added benefits which will be going live in the 1st April 2020:

This means unlimited checks for wear and damage, ensuring your bike is safe to ride. We will inspect points across all key areas of your bike: frame, saddle, handlebars, wheels, brakes and drivetrain.

We take pride in the bikes we design, build and sell and are happy that all of our bikes are the highest quality. That's why we offer a Lifetime Warranty on the frame and rigid forks of all Halfords and Halfords exclusive brands.
